## Monochrome Multifunctional Printers

- Monochrome A3 print, scan, copy and fax systems with an output speed of up to 90 pages per minute for high-volume printing
- Advanced technology, combined with easy to use functionality, provides increased efficiency for larger workgroups requiring reliable document output and excellent image quality
- Simple, fast and precise digitalisation of paper originals with the integrated high-speed dual-sided document feeder and double-feed detection

# Enhanced levels of reliability, productivity and security for working environments

Today's new hybrid work environment has permanently changed demands for access to information: it must be available anywhere and anytime. Only then can organisations maintain maximum efficiency and productivity, yet information also needs to be secure.

Toshiba's cloud-ready products and our team of experts provide the solutions you need to improve workflows and print with functionalities that are smarter, and more convenient than ever before. We have implemented new features to increase productivity with the vision of Together Information – helping people and organisations share information more effectively through better products and solutions. In line with the needs of the flexible work model, the series is equipped with functionalities that enable remote and hybrid working.

Based on the latest technological advances and security standards, we deliver end-to-end tailored solutions to help you seamlessly and securely navigate today's digital workplace. In addition, our multifunctional print (MFP) systems meet the highest environmental requirements. From consulting, cloud migration and fleet management to implementation and technical support, Toshiba is at your side.

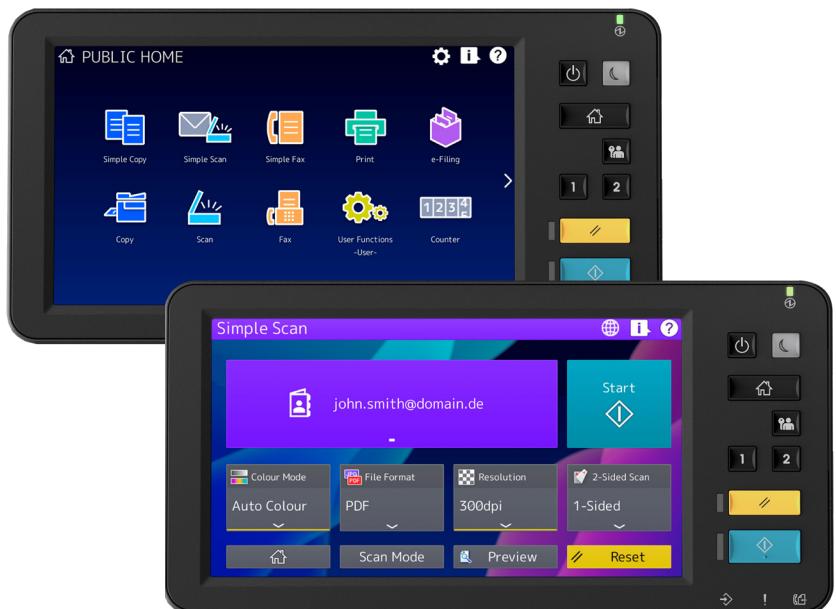

Each of the models in the Toshiba e-STUDIO9029A series delivers high-quality monochrome documents with precision, to meet the needs of large-sized workgroups. All three multifunctional systems are equipped with advanced features you can rely on, and performance that will enhance productivity.

- Advanced Toshiba e-BRIDGE Next controller technology ensures smooth integration and operation without compromising on document quality
- With a print speed of up to 90 pages per minute, exceptionally fast first-copy output and a paper capacity of up to 8,020 sheets, the e-STUDIO9029A series delivers reliable document output
- Designed to support and enhance modern document workflows and simplify complex multi-step processes

As a leading provider of information technology, Toshiba has always placed top priority on protecting data. The e-STUDIO9029A series comes with advanced security features, such as anti-malware function, secure Solid State Drive (SSD) and Trusted Platform Module(TPM) with encryption function. Optionally you can choose the Secure HDD with data overwrite function. Deploy all the security technologies offered to ensure your data is protected when using the MFP.

# Smart, smooth and convenient design

For an enhanced user experience, the devices are equipped with a large touch-screen user interface of 26 cm (10.1"), with an embedded web browser, offering a similar experience to that of using a tablet. It is easy to use and fully customisable, allowing you to conveniently tailor settings, automate workflows and integrate third-party solutions. In line with the bold look and feel of the e-STUDIO series, the user interface enables simple operation and improved efficiency.

# An all-rounder to meet high demands and document management needs

Success in today's business world demands seamless access to data and information at all times, regardless of whether staff members are working remotely or on the go. The e-STUDIO9029A series easily integrates into cloud and mobile workflows. Thanks to the advanced e-BRIDGE Next controller technology, you can also seamlessly utilise third-party solutions.

The array of embedded apps is designed to address the individual requirements of each business, giving you the flexibility to connect to the cloud-based application of your choice.

## Your partner in sustainability

Toshiba is committed to people and the future of our planet. With the aim of building a sustainable society, we make every effort to minimise the impact of our business on the environment. Conservation and protection of the world's natural resources are top priorities in every business process and product. A key aspect of our approach is to provide solutions that make our customers' operations more sustainable. Accordingly, the e-STUDIO9029A series has been equipped with various environmentally friendly features:

- Low-power, super sleep mode to save money and reduce energy consumption
- Compliance with the latest, most stringent environmental requirements
- The e-BRIDGE Plus for Green Information app, which displays environmental achievements directly on the MFP to encourage use of eco-friendly settings

# Big performance for any workplace

Toshiba's e-STUDIO9029A series offers a wide spectrum of functionalities in a surprisingly compact format. The multifunctional systems enable you to integrate and simplify your workflows while improving efficiency.

**Reliable High Speeds** including 65/75/90 monochrome pages per minute.

**Mobile printing** gives you full flexibility and lets you easily connect to mobile devices via AirPrint on iOS/macOS® or the Mopria Print Service.

**Wi-Fi Direct** offers the option of on-demand connection. Coupled with the Toshiba e-BRIDGE Print & Capture app, the feature not only lets you print from but also scan to your mobile device.

**Remote assistance** fits seamlessly into today's work styles and helps keep your business running when technical difficulties or uncertainties occur.

**Embedded optical character recognition (OCR)** simplifies the creation of searchable PDFs and editable document formats such as Microsoft Word.

**Scan to USB** is great for working with documents on the go. You can even create PDF/A-2 files, suitable for long-term archiving.

**Scan and fax preview** allows you to review, rotate and modify your scanned documents or incoming faxes before saving or printing them.

**Barcode printing** lets you send print data from your ERP system directly to the MFP. The barcode sequence is automatically processed and printed with no need for additional middleware.

**Customisable user interface (UI)** for your ideal user experience. A fully customisable, tiltable 26 cm (10.1") colour panel works like a tablet or smartphone interface, so you can find whatever you need with a swipe of your finger.

**Toner Change On-The-Fly** allows you to replace toner cartridges, even while the MFP is printing.

# Configuration

# Highlights

## Embedded apps

Each company has its own needs and preferences for storing and sharing data. To make sure you can use the e-STUDIO9029A series MFPs as you wish, we have made an array of efficiency-enhancing apps available for your customisation. By using your choice of embedded and optional apps, you can tailor the workflow and user experience to your needs. Whether connecting to cloud services or local applications, we have the solution.

## Multi Station Print

Toshiba's proprietary Multi Station Print Solution allows users to send print jobs from their desktops and retrieve them at up to 50 different MFPs within the network by authenticating at a device, e.g. by simply swiping an ID badge.

## Dual Scan Document Feeder (DSDF) and Double Feed Detection

The DSDF can hold up to 300 originals and processes 240 pages per minute by scanning both sides of the page in a single pass. With the Double Feed Detection, you can ensure that no pages are missing after scanning, eliminating the need for manual checking.
